

12 Way Mains Distribution Unit Product Code: ASPMDU12(DM)32A

At only 1RU high, this unit is designed to meet the growing trend of increasing the number of separate powered units within a rack.

Features

12 Way fused IEC C13 outlets
12 Blue power indicators
Powercon Input connector
Digital metering

Specification

Rack Mount: 1RU
Width: 483mm
Depth: 340mm

The power meter displays four critical power measurements,
Amps, Volts, Watts and Power Factor.

A front panel selector-switch provides two modes of operation: a fixed reading of any of the four parameters, or a continuous cycling through all four measurements

Total load not to exceed 32 Amps
