

14 Way Mains Distribution Unit

Product Code: ASPMDU14(DM)16A

At only 1RU high, this unit is designed to meet the growing trend of increasing the number of separately powered units within a rack.

Features

14 Way fused IEC C13 outlets
 14 Blue power indicators
 Powercon Input connector
 Digital metering

Specification

Rack mount: 1RU
 Width: 483mm
 Depth: 340mm

The power meter displays four critical power measurements,
 Amps, Volts, Watts and Power Factor.

A front panel selector-switch provides two modes of operation: a fixed reading of any of the four parameters, or a continuous cycling through all four measurements

Total load not to exceed 16 Amps
